Early Education and Child Care

OLD COLONY YMCA - EASTON BRANCH

OUR EXPERIENCE

The Old Colony YMCA is the largest provider of child care services in Southeastern Massachusetts.

Our child care services began in 1980 and include extensive infant, toddler, preschool, and school age programming.

Old Colony YMCA child care centers are located in a variety of settings including full facilities, public schools, and churches.

We currently operate 42 Early Education and Care (EEC) licensed programs serving approximately 2,200 children per day.

OUR PHILOSOPHY

We believe that each child is special, with his or her own unique personality, talents, and skills. We use a developmentally-appropriate approach geared towards each child's social, emotional, cognitive, and physical growth.

Our goal is to build upon each child's unique abilities, helping him or her to blossom into the young person (s)he was intended to become.

We offer a wide range of activities, appropriately designed to the ages of the children we serve (6 weeks to 13 years). This approach reflects the Old Colony YMCA's core values of honesty, respect, responsibility, and caring, as well as our commitment to nurture the potential of every child.

Parents and family members are a critical component of all Old Colony YMCA child care programs. Through our many years of working with families, we have learned that shared experiences between parents and children, starting at a very young age, create a bond that provides the foundation for positive relationships, shared memories, and communication.
